

# FA SERIES

## FULLY-FILLED CASE WITH TEMPERATURE COMPENSATION

### STANDARD FEATURES

The internal "breathing diaphragm" eliminates the need for an air bubble in the mid-range of the gauge, which can distort readings and looks unsightly. The "ICD" is standard on all 2-1/2", 3-1/2" and 4-1/2" FA-Series gauges.

The "ICD" also prevents accuracy shift from changes in internal case pressure caused by fluctuations in ambient temperatures from -20 to 150° F.
